

Policy of TES VSETÍN s.r.o.

Vision

With 100 years of experience in the production of electrical equipment, TES aspires to be the global partner of choice for purpose-built rotating electrical machines, drives and components.

Policy principles

A satisfied customer is the centre of our attention.

- 
Safety
 When it comes to our employees and the products we manufacture, we put safety first. By actively identifying risks and constantly applying preventive measures, we create conditions to minimise occupational accidents and risks. We prevent the occurrence of occupational diseases.
- 
Environment
 We actively apply the principles of environmental protection.
- 
The Law
 We abide by the law and uphold business ethics.
- 
Employees
 We respect each other and enhance communication, responsibility and teamwork.
- 
Suppliers
 To reach our goals, we cooperate only with reliable suppliers.
- 
Region
 We develop our firm in compliance with our region's needs.
- 
Customers' needs
 We understand our customer's needs and secure our common future with the solutions we provide.
- 
Projects
 The projects we undertake for our customers translate into long-term profits both for them and for us.
- 
Improvements
 To us, each day is a new opportunity to improve our products, services and relationship with our business partners and employees.
- 
Quality
 We are constantly working to improve the quality of each of our products and activities.
- 
Solutions
 By satisfying our customers' needs, we guarantee long-term prosperity and stability, thereby increasing the company's value for our shareholders.
