Rotor Stacks and Pole Winding for Salient Pole Machines

**Individual poles**

- Number of poles: 4 - 20
- Length of stack with winding: 500 - 1,800 mm
- Inner stack diameter: 200 - 900 mm
- Outer stack diameter: 600 - 1,600 mm
- Rotor weight: max. 16 t

**Rotor stacks – wound without a shaft**

- Length of pole with winding: max. 3,000 mm
- Pole weight: max. 4 t
